Work Experience / Leadership

AlphaRing International (聚界潔能) | Administrative Operations Intern
June 2024 – Aug 2024 (Summer Internship)

- **Proactive Executive Support:** Managed high-level executive meetings by anticipating logistical needs beyond standard instructions; independently coordinated guest dietary preferences, transportation logistics, and specialized documentation (e.g., Non-Disclosure Agreements).
- **Cross-Functional Coordination:** Acted as the primary liaison between the executive team and building management to streamline guest arrivals, parking reservations, and facility preparedness for VIP clients.
- **Event Management & Execution:** Played a key role in the Grand Opening of the Tainan Laboratory; spearheaded the reception desk operations, including guest check-ins, VIP hospitality, and corporate gift distribution for 50+ attendees.
- **Bilingual Startup Agility:** Selected through a 100% English interview process; thrived in a fast-paced, lean startup environment (10-15 employees), demonstrating the ability to wear multiple hats and execute tasks with high precision and minimal supervision.

NCKU German Student Language Partner (Tandem) Program
Selected Language Partner
Jun 2024 – Aug 2024

- **Competitive Grant/Slot:** Secured one of only 34 highly coveted slots among a large pool of applicants by submitting a comprehensive, structured cultural exchange proposal.
- **Project Management & Reporting:** Executed a month-long intensive exchange with bi-weekly sessions; maintained meticulous progress reports for the Chinese Language Center, ensuring all program milestones and learning objectives were met.
- **Relationship Management:** Established a long-term international connection through persuasive storytelling and cultural immersion activities, proving the ability to maintain professional and personal rapport across borders.

The Microbiological Society of Taiwan | Bilingual Master of Ceremonies (MC)
2024 Annual Meeting & Scientific Poster Competition | Dec 24 - 25 , 2024

- **Professional Bilingual Hosting:** Orchestrated the annual meeting for 50+ domestic and international attendees, managing the entire program flow in both English and Mandarin.
- **Technical Presentation Support:** Coordinated with international students and researchers regarding technical presentation logistics, including slide deck troubleshooting and poster session arrangements.
- **Public Speaking & Crisis Management:** Demonstrated high composure and verbal clarity while moderating student presentations and poster competitions, ensuring the event remained on schedule and professional.

Global Education & Culture Group (遠見文創)
Teaching Assistant (TA) & Cross-Cultural Coordinator
July 28, 2025 - August 8, 2025 (English Immersion Summer Camp)

- **Bilingual Bridge for Young Learners:** Served as the primary linguistic link for Grade 5 and 6 students , translating complex instructions from Canadian instructors into age-appropriate, engaging English to ensure 100% student comprehension.
- **Operational Liaison:** Facilitated seamless coordination between Canadian partner institutions and local management; managed daily/weekly briefings and ensured curriculum goals were accurately synchronized across both parties.
- **Communication Specialist:** Acted as a dedicated "cultural translator" for Canadian instructors with no Mandarin proficiency, effectively bridging communication gaps and providing real-time feedback to optimize program delivery.
- **Adaptive Communication:** Demonstrated high agility by tailoring communication styles—using simplified, high-energy English to motivate students while maintaining professional, detail-oriented coordination with international staff.

NCKU Indigenous Resource Center
Cultural Exchange Interpreter & Coordinator
Sept 2025 – Dec 2025

- **Simultaneous Interpretation:** Served as the primary English-Mandarin interpreter for a 2-day cultural workshop featuring the Maori Cultural Team, bridging communication between Maori delegates, NCKU, and local cultural studios(回佳工作室).
- **Content Localization & Digital Media:** Produced precision English subtitles for the "Original Form" (原形必錄) Podcast series, ensuring complex indigenous cultural nuances were accurately preserved for a global audience; authored bilingual press releases and appreciation letters to maintain professional stakeholder relations.
- **Logistics Coordination:** Facilitated the seamless execution of the exchange program, managing real-time communication gaps and ensuring a respectful, professional environment for international guests.

University of Liverpool | MOE Scholars Program (Study Abroad Grant)
Incoming Sustainable SCM Intern (Sponsored by Ministry of Education)
June 17, 2026 - August 4, 2026

- **Competitive Selection & Oral Excellence:** Successfully secured the MOE Global Study Grant as one of only 18 selected candidates (under Dr. Tao Chen), demonstrating high-level English proficiency (IELTS 6.5) and the ability to navigate high-pressure faculty interviews.
- **Strategic Research Business Translation:** Synthesized 5 years of DHL Express Taiwan’s operational data into a strategic report on "Green Last-Mile Transformation."
- **Expert Presentation:** Presented actionable insights on public-private governance and user demand shifts to a panel of experts, proving the capability to translate technical logistics engineering into executive-level business recommendations.

Business Competitions and Honor

South Taiwan "iLink" Creative Business Competition | Champion (1st Prize / Gold Medal)
Project:SafeCloud
Sep 16 , 2025 – Oct 18 , 2025

- **Concept Innovation & Localization:** Pioneered the introduction of the UK "Walking School Bus" concept to the Southern Taiwan market, addressing urban traffic congestion and student safety through a structured pedestrian-sharing model.
- **Technical Product Development:** Independently architected and deployed a Line Bot interface to facilitate real-time coordination between parents and volunteers, serving as the core "Digital Dispatcher" for the system.
- **Complex Logistics Modeling:** Conducted detailed traffic flow calculations and pedestrian route optimization to ensure the safest and most efficient walking paths, integrating engineering precision with social impact.
- **Strategic Pitching:** Led the team to secure 1st Place among 40+ cross-disciplinary teams (including graduate students) by presenting a scalable business model that balances public safety with ESG-driven logistics.

NCCU Star Business Competition | Project Manager (PM)
Sustainable Surplus Food Truck Initiative
Oct 2025 – Nov 2025

- **perational Logistics:** Designed optimized route planning for food collection and distribution, drawing inspiration from the "Too Good To Go" business model and the concept of trash collection car in Taiwan.
- **Risk Assessment & Reflection:** Conducted a deep dive into the trade-offs between food waste reduction and food safety regulations, demonstrating the ability to identify critical business bottlenecks in emerging markets.

E.SUN Bank Campus Business Competition | Project Manager (PM)
Green Consumption & Loyalty Points System
Oct 2025 – Dec 2025

- **Strategic PM Leadership:** Orchestrated project timelines and meeting agendas for a team competing against 120+ teams (500+ participants) from 40 universities.
- **Product Concept & Prototyping:** Authored the core business proposal focusing on Green Fintech; independently developed a private-domain web prototype to demonstrate the feasibility of a sustainable loyalty point ecosystem.
- **Consumer Behavior Analysis:** Engineered a business model designed to drive sustainable consumer behavior through economic incentives, aligning with global ESG and Green Finance trends.

TSMC Dream-Building Program | Project Lead & Concept Architect
Cycling Culture Exchange: Netherlands to Taiwan | 2025

- **Strategic Vision:** Developed a high-completeness proposal to study Dutch cycling infrastructure and promote short-distance sustainable mobility in Tainan and Taipei.
- **Independent Execution Mindset:** Despite the proposal being declined due to its "high self-sufficiency," leveraged the feedback to pivot towards independent community workshops and digital storytelling (short-form video) to advocate for cycling awareness.

L'Oréal Brandstorm 2026 | Global Competition Participant
Project: Data-Driven Precision Fragrance App & Scent Pen
Jan 7 , 2026

- **High-Pressure Communication:** Delivered a full-English pitch in a high-stakes global competition, mastering the art of persuasive storytelling and visual presentation under rigorous time constraints.
- **Cross-Industry Agility:** Demonstrated a Growth Mindset by pivoting research focus into the beauty and fragrance industry, leveraging data-driven insights to propose a personalized consumer tech solution.
- **Resilience & Learning:** Gained profound experience in international business standards and consumer-centric innovation, expanding professional horizons beyond traditional logistics.

DreamHack Business Case Competition | 2nd Place (Silver Medal)
Project: Digital Twin for Nursing Clinical Training
Jan 17 - 18 , 2026

- **Digital Twin Innovation:** Engineered a Digital Twin system designed to simulate clinical environments, significantly enhancing the training proficiency and procedural familiarity of nursing staff.
- **Industry Recognition:** Outperformed 48 competing teams to secure 2nd place; received a direct talent recruitment offer from the founder of Tera Thinker (Jason) based on the project's technical feasibility and market potential.
- **Business-Technical Integration:** Successfully translated complex medical training requirements into a scalable digital solution, demonstrating strong Product-Market Fit (PMF) analysis.

Research Projects

National Science and Technology Council (NSTC) Research Grant
Undergraduate Researcher
Project: Adaptive Signal Retiming Framework Incorporating Physical Compensation Characteristics: A Case Study of Arterial Coordination under Pedestrian Detection–Based Delay Extensions

- **Self-Taught Technical Mastery:** Independently mastered Vissim (Traffic Simulation Software) through self-study.
- **Research Excellence:** Formulated and submitted a competitive research proposal to the NSTC, demonstrating the ability to define complex problems and execute independent technical investigations.

Sustainable Logistics & Carbon Reduction: A Case Study of DHL Express
Lead Researcher
Academic Thesis (Selected for Publication in Conference Proceedings / Thesis Collection)
2025 – 2026

- **Strategic Business Analysis:** Authored a high-impact thesis on the "Green Last-Mile Transformation of DHL Express Taiwan," analyzing 5 years of longitudinal data on international logistics trends and public-private governance.
- **Academic Recognition:** Research findings were selected for publication in a professional thesis collection, demonstrating superior analytical rigor and high-quality academic writing.
- **Business-Technical Translation:** Converted complex logistics engineering models into actionable ESG strategies and user-demand insights, aligning corporate operations with global net-zero goals.

Volunteer Experience

NCKU Chinese Language Center (CLC) Student Service Group
International Student Liaison & Volunteer Coordinator
Sept 2024 – June 2026

- **Strategic Matching & Onboarding:** Facilitated the cultural and linguistic matching between international students and local volunteers; conducted pre-service training sessions to ensure high service standards and cultural sensitivity.
- **Resource & Task Allocation:** Managed the allocation of service tasks for a diverse volunteer team, ensuring all international students received personalized support for campus integration and Mandarin practice.
- **Cross-Cultural Bridge:** Acted as a primary point of contact for international students to navigate campus life and local communication, demonstrating exceptional empathy and problem-solving skills in a multilingual environment.
- **Daily Language Coaching:** Facilitated immersive Mandarin speaking sessions, helping international peers overcome language barriers through patient and adaptive communication techniques.
